Patient Participation Group

The Practice is committed to improving the services we provide to our patients.
To do this, it is vital that we hear from people about their experiences, views, and ideas for making services better.
By expressing your interest, you will be helping us to plan ways of involving patients that suit you.
It will also mean we can keep you informed of opportunities to give your views and up to date with developments within the Practice. If you are interested in getting involved, please tick the box below

Yes, I am interested in becoming involved in the Practice Patient Participation Group (Please tick the "Yes" Box)	**Yes**

Summary Care Records

The NHS are changing the way your health information is stored and managed.
The NHS Summary Care record is an electronic record of important information about your health.
It will be available to health care staff providing your NHS Care. There are leaflets at reception with more information.
This is the national sharing programme (England only)

THIS SECTION IS MANDATORY YOU MUST CHOOSE FROM ONE OF THE OPTIONS BELOW

Expressed Consent	**This will share your medication, allergies and any adverse drug reactions**	
Expressed Consent with additional information	**This will share all of the above plus additional information i.e summary of historical information, Care plans in place, Immunisation history, communication preferences i.e sign language, interpreter etc. Any End of life care plan that may be in place.**	
Expressed Dissent	**This is if you want to actively opt out**	

If you are filling out this form on behalf of another person, please give your name here and circle your relationship with them below:

Your name:	**Parent**	**Legal Guardian**	**Lasting Power of Attorney for Health and Welfare**

If you require any more information, please visit http://digital.nhs.uk/scr/patients or phone NHS Digital on 0300 303 5678

Please note these forms must be completed and passed back to reception **by hand**. They need to be checked by a receptionist before we can register you as a patient. We **cannot register** you without all the relevant information.

Local Shared Electronic Record

This is a local sharing programme to Devon only

The Local Shared Care Record securely connects different medical and care computer systems together. When your records are requested, it collects the information from the different systems and shows the information to the requester. None of the information it collects is stored by the requester and none of it can be changed by the requester. Because it collects the information only when it is needed, the information always accurately reflects the data as stored on the GP electronic record.

Before any information is collected or displayed to a care professional, that professional must have your consent to view your record. Your consent is recorded on the system so that we know exactly who has accessed what information and when. The GP who holds the original record can see who has viewed it and that you have given consent.

The Local Shared Care Record uses the secure NHS network to retrieve the information and displays a read only view for the care professional to use to support the delivery of care at that specific point in time.

In the case of a medical emergency where the patient is too unwell or unconscious the system will allow the healthcare professional to access the medical record without obtaining explicit consent from the patient if it is thought to be in the best interest of the patient.

For further information please ask at Reception for a leaflet

If you DO NOT wish your electronic record to be shared please circle NO	**No**

Please note these forms must be completed and passed back to reception **by hand**. They need to be checked by a receptionist before we can register you as a patient. We **cannot register** you without all the relevant information.

Record Sharing
Managing your data choice

From 25 May 2018 you can choose to stop your confidential patient information being used for purposes other than your own care and treatment. This choice is known as a national data opt-out. If you choose to opt out, NHS Digital will apply your opt-out from 25 May 2018. All other health and social care organisations are required to apply your opt-out by March 2020. Find out more about the national data opt-out.

If you have previously registered an opt-out with your GP practice to request that NHS Digital does not use your confidential patient information (other than for your individual care and treatment), this will have automatically been converted to a national data opt-out on 25 May 2018.

For further information please ask at Reception for the leaflet, Data sharing – Find out why your data matters

An informed patient, in consultation with a Healthcare Professional, can choose to permit or restrict access to the information entered into their record at each organisation that accesses their record.
The patient will be asked to give their record sharing consent at each organisation at which they receive care.
The patient's consent can be changed at any time by them by logging into their online account and changing their sharing preferences.

Sharing Out

Do you consent to the sharing of data recorded here with any other organisations that may care for the patient?
Please circle Yes/No

Yes	**Share data with other organisations**
No	**Do not share any data recorded here**

Sharing In

Do you consent to the viewing of data by this organisation that is recorded at other care services that may care for the patient where the patient has agreed to make the data shareable?
Please circle Yes/No

Yes	**Consent given**
No	**Consent reused**
